

SCORM as a Service

Always stream the most up-to-date training modules with Infosec IQ's LMS integration.

Deliver Infosec IQ training from your LMS

Leverage the entire Infosec IQ content library with the flexibility to deliver training modules from your learning management system. Download a SCORM package for any training module and upload it to your LMS.

Automatically updated training modules for your LMS

Security threats change quickly, making it vital to keep your training materials — and your employees — current on the latest threats. SCORM as a Service training modules stream directly from Infosec IQ, ensuring your LMS always delivers the most recent version of each training module.

Self-serve access

Infosec IQ SCORM packages are available for instant download from the AwareEd content library, meaning you can upload the security training you need to your LMS when you need it.

SCORM tracking

Within Infosec IQ, you can monitor SCORM downloads, module views and the total number of views available for each training module.

SCORM as a Service Details

- ✓ SCORM 1.2 compliant
- ✓ Modules hosted on content delivery network (CDN)

About Infosec

At Infosec, we believe knowledge is the most powerful tool in the fight against cybercrime. We provide the best certification and skills development training for IT and security professionals, as well as employee security awareness training and phishing simulations.
